

INTRODUCING AXON'S X-TREME BLOWOUT PREVENTER DESIGN FEATURING

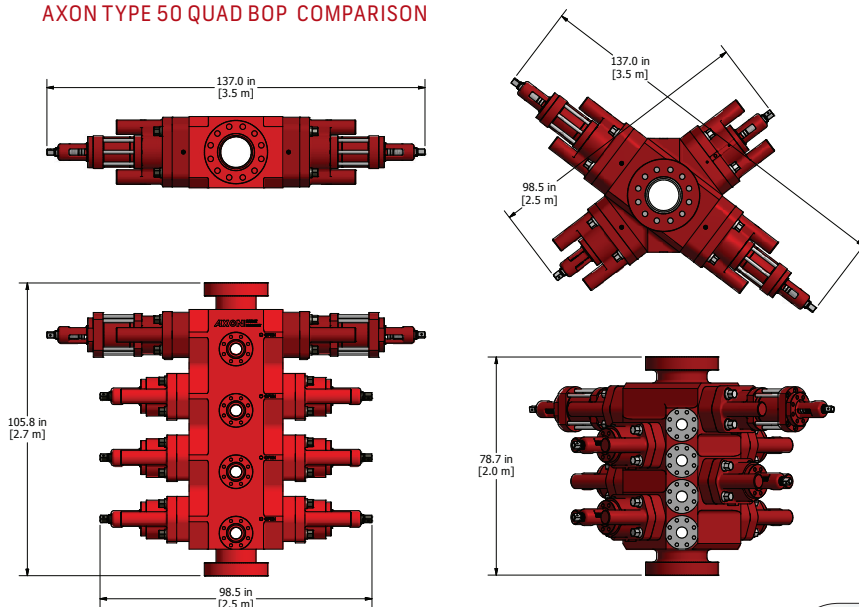

25%^{*} WEIGHT & HEIGHT REDUCTION

The Next Level of BOP Technology

Our patent pending X-treme BOP design is engineered with an innovative pattern that significantly decreases weight and height, while also improving body stress.

Especially useful in coiled tubing and other operations with space restrictions, this cutting-edge design is configurable to virtually any BOP type and size.

AXON TYPE 50 QUAD BOP COMPARISON

^{*} Results are typical but may vary according to BOP size. Comparison using AXON's Type 50 11-5M Quad BOP with 3 standard operators & upper shear with booster.
